FREEMASONRY

INTRODUCTION

Freemasonry is a dangerous union , once you say its name you'll notice anxious people. Once you start talking about it, you'll hear people counting its machinations.

Freemasonry pended secretively to hide its real goals, the reason behind that could be that the Jews battled the messengers of God and thought that they were “the chosen nation” and all the other nations are worthless and directed as the Jews wanted.

Wise Zionists said in their 15th protocol:

“it's logical that we captain Freemasonry because we are the only ones who know where we are going and what our real goals are. But the ‘koiem’ (naïve or stupid people), they don't understand neither what's going on, nor what's going to happen.

They don't care about anything but their momentarily plans and don't feel that they are directed by us somehow”.

So what is Freemasonry and how does it affect the world?

I.FREEMASONRY;DEFINITION.. HISTORY AND RULES:

I.1.WHAT IS FREEMASONRY?

Freemasonry depends on the Jewish method which disprooves the existence of God. Freemasons allege that Freemasonry is a superior belief that doesn't admit neither patriotism nor nationalism but seeks to unite the world, achieve the world-peace and world-unified-language and many of these imaginary dreams.

Nobody knows when were this fraternity created. Some historians think that this fraternity started after the Crusaders occupied Palestine by people called 'The chivalry of the temple' to ruin Alaqsa mosque and build ' the temple of Solaiman'. Others think that the founder of Freemasonry was a Romanian leader who had plans to dominate the world and the first name of the fraternity was ' The hidden power' then it turned to ' freemasonry' which means in English 'The builders'.

The members of this fraternity always meet in a place called 'Lodge' and practice odd rites near to myths and witchcraft and they think that the Satan appears to them in their Grand Lodges!

I.2.WHAT IS A FREEMASON?

A freemason can be a man from any nation, race, social and economic level who believes in Freemasonry's goals.

I.3.HOW OLD IS FREEMASONRY?

The history of modern freemasonry is fairly understood, going back to roughly the 1700's. Beyond that point in time, information starts to become less available. There are some documents and notable figures prior to that point in time,

Greg Stewart- what is Freemasonry?

such as the Regius/ Halliwell poem, and notables like Elias Ashmole, but no certifiable records exist to demonstrate the organized activity as we have today.

One of the virtues of Freemasonry is that its study and practice allow members to explore this topic, and at times travel outside the bounds of connections typically explored in mainstream history. Some Masonic historians have attempted to draw connections to the Knights Templar, the Rosicrucian's, Jewish Kabbalah traditions, Alchemy, Christian Mysticism, and further back to the precursor Essenes at the time of Jesus. These explorations have been considered in both the past and present Masonic scholarship to varying degrees of acceptance, but many points of contention remain.

In present days, Freemasonry has barely changed in the preceding 200 years since the establishment of the United Grand Lodge of England, and is modeled in a system that was barely changed for the 150 years prior to that. From that shift, the present day fraternity moved from an "operative" guild to a "speculative" one . the function of the lodge turned to the allegorical and symbolic meanings of the stone masons and less about the physical operation.

These changes have evolved to shape the look and feel of modern lodge operation today.

1.4.WHY ARE FREEMASONS SO SECRETIVE?

Many masons won't answer questions about the fraternity as they believe it is supposed to be a secret. A common reaction to this idea is that Masonry is a "Society with Secrets", rather than a "Secret Society".

And it's self-evident for every destructive union such as Freemasonry to hide its true goals because that keeps it away from observation and also helps it to attract more people by attracting everybody using his fondness.

I.5.WHY DO FREEMASONS NOT ADMIT WOMEN?

At times, women have been admitted but only in very rare occurrences. This doesn't mean that Masonry is something women can't understand, nor does it mean that women should be excluded from it. Rather, from a modern perspective, the exclusion of women is a vestige from a bygone era that has not yet been fully addressed in the present days, and like other issues from past generations this one will undoubtedly be addressed at some point in the future. Today, the exclusion is predicated on issues such as distractions in a predominant male environment, the need for unfettered brotherhood, and the belief in purism of ritual practice.

Ultimately, women Freemasons do exist with their own unique ritual practice and philosophies that are similar to the "regular" practice.

I.6.WHY ARE BROTHERLY LOVE, RELIEF AND TRUTH SO IMPORTANT TO FREEMASONRY?

There's a ritual ceremony practiced with each candidate to induct him into the fraternity so that each man undergoes the same experience creating a

unifying shared experience. That practice imparts the three principal tenets of the fraternity which are Brotherly Love, Relief, and Truth.

Image -2-

Brotherly Love as directed towards all mankind and especially to other Masons. Relief, in that every Mason is obligated to relieve the suffering of any Master Mason they encounter who is in dire need, and if in their power to do so, to the best of their ability, Also to act charitably towards society, giving of themselves to better the common good. And Truth, which is represented by the Divine in its multiplicity and diversity, as understood by all men. These three ideas represent the core upon which Freemasonry focuses in its ultimate distillation, in that Freemasonry does not hold one faith above another, rather seeing faith itself as the common denominator between all of faiths.

1.7.IS THERE A RACIAL DIVIDE IN FREEMASONRY?

Freemasonry is a tolerant society, without any racial or religious divide. A man of any race should be able to walk into any lodge and petition for membership.

Each lodge does things uniquely their own way. Segregating lodges based on race is immoral and illegal and against the principals of Masonic conduct and ethos. Any division based on race is wrong.

2.FREEMASONRY RELIGION:

2.1.IS FREEMASONRY A RELIION?

Freemasons attempted to keep people away from the Islamic and the Christian method by spreading idolater thoughts that they've created.

And some people think that Freemasons have twisted the Evangel.

The founder of this cult have always feared hell when he was a kid but he didn't want to repent. When he became in his 16's he created a charity with money he has inherited from his father and he has alleged that he has met the Jesus Christ, and he predicted that the Jesus Christ will come down to earth in 1914 but only Freemasons will see him. He has also forbid moving blood from one person to another so many kids from this cult have died.

1914, Jesus Christ didn't come down to earth.. the founder's excuse was: Jesus was fighting Devils in the sky and he won so it wasn't suitable for him to come down to earth publicly so he came down secretly and only met the leaders of the cult. His followers believed him(they were more than 800.000)!

It's weird that the charity is still in the USA and has big buildings in New York with a lot of followers!

One of the cults that Freemasons contrived was ' scieology ' that made people believe in devilish thoughts (psychology as they call it).

So Freemasonry is a religion created by a person not sent down from the sky.

2.2.WHY DOES FREEMASONRY USE SUCH ODD SYMBOLS?

By using such symbols, it conveys specific meanings or lessons. For example the skull (or the death's head) is a symbol for mortality and as Freemasons allege it's to remind us that no matter how we live this life, rich or poor, we are all subject to the same fate, and that our goal should be to make this world better for everyone.

The Knife and Fork Degree
The Knife is an instrument made use of by operative Masons for the purpose of keeping the wild animals at bay, in the event of an attack. But we work in speculative Masonry only, so, we are taught to make use of it for the more noble and glorious purpose of slicing our Steaks, and Vegetables prior to ingesting them.

The All Seeing Eye of Providence
Imagery of an all-seeing eye can be traced back to Egyptian mythology and the Eye of Horus. It also appears in Buddhism, where Buddha is also regularly referred to as the "Eye of the World" throughout Buddhist scriptures

The letter G: The use of the letter G has many meanings, including Geometry, which is said to be the first and noblest of sciences.

2.3.DO FREEMASONS WORSHIP THE SATAN?

Freemasons don't actually worship the Satan.. they just have some devilish thoughts.

2.4.DO FREEMASONS BELIEVE IN JESUS CHRIST?

Freemasons believe in Jesus Christ but they don't follow his method.

Freemasons deformed the evangel and turned into a book called “the new testament” .

3.BEING A FREEMASON:

3.1.HOW TO BECOME A FREEMASON?

The process begins first by getting to know the lodge you wish to join. This is really the first step in becoming a member, and starts with introducing yourself to a lodge at a dinner and getting to know the membership before the lodge opens. And to keep in mind Masons do not solicit for members, the decision to become a Mason is your own.

The requirements of being a Freemason:

-Every applicant must advocate his belief in the existence of a Supreme Being.(the supreme being is who created the world but they

don't worship him or consider him the God).

- If you are seeking Membership YOU MUST ASK a Mason or a Masonic Lodge for an application

2BIASKI

-You must be a man at least 21 (18 in some jurisdictions) years of age.

-You must be a good moral character.

You must have a personal belief in a Supreme Being (the definition of a Supreme Being is up to you)

-You must be a Resident of your state for 12 months (in most cases).

-You must decide to become a Mason of "your own free will and accord" You will need to express your personal interest in joining the Fraternity.

-You must be loyal to your country.

-You must be dedicated to providing for your family

-You must have a sincere determination to conduct yourself in a manner that will earn the respect and trust of others and possess a desire to help others through community service and universal benevolence.

-You must be willing to sign a Petition, stating your age, occupation and place of residence.

3.2. MY FATHER, UNCLE, GRANDFATHER, GREAT GRANDFATHER WAS A FREEMASON. HOW DO I FIND OUT MORE ABOUT HIS MASONIC HISTORY?

The best place to start would be at the Grand Lodge of the state in which he was a Mason. Some Grand Lodges keep records of past members and may be able to determine what lodge they were a part of and any notable achievements or awards they may have had with the lodge, or ancillary bodies, they belonged to. Other than the Grand Lodge, the next step would be the local lodge to which they may have belonged. They may have some of their individual information that they can research.

3.3.FAMOUS FREEMASONS

I'll mention too few famous freemasons:

Greg Stewart- what is Freemasonry?

-George Washington

Image-7-

(February 22, 1732– December 14, 1799) Washington was the commander of the Continental Army in the American Revolutionary War (1775–1783) and served as the first President of the United States of America (1789–1797). For his central role in the formation of the United States, he is often referred to as the father of his country. Washington was made a Master Mason 1753 at age 20 at Fredericksburg Lodge, Virginia.

-Benjamin Franklin

Image-8-

(January 17, 1706 – April 17, 1790) Franklin was an American printer whose first publication in the colonies was - Anderson's Constitutions of 1723 a Masonic book of conduct. Franklin was an inventor, writer, publisher, author, diplomat, philosopher, and scientist who contributed greatly to the founding of the United States. In his time as a Mason he held the position of Grand Master of Pennsylvania (a Masonic leadership role). Franklin was made a Master Mason at St. John's Lodge Philadelphia PA.

-Wolfgang Amadeus Mozart

Image-9-

(27 January 1756 – 5 December 1791) The Austrian composer was a

prolific and influential composer of the Classical era. He composed over six hundred works, many acknowledged as pinnacles of symphonic, concertante, chamber, piano, operatic, and choral music. He is among the most enduringly popular of classical composers. Mozart was made a Mason in Lodge Zur Wohltatigkeit., Vienna, date unknown.

-Mark Twain (Samuel Langhorne Clemens)

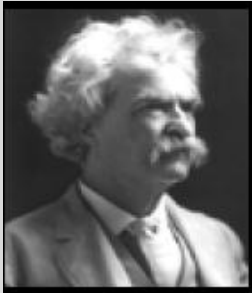

Image-10-

(November 30, 1835 – April 21, 1910) better known by the pen name Mark Twain, was an American author and humorist. Twain is most noted for his novels *Adventures of Huckleberry Finn*, which has since been called the Great American Novel and *The Adventures of Tom Sawyer*. He is extensively quoted. During his lifetime, Twain became a friend to presidents, artists, industrialists, and European royalty. Twain held immense public popularity because of his keen wit and incisive satire which earned him praise from both critics and peers. William Faulkner called Twain “the father of American literature”.

4.MASONIC LODGES:

4.1.WHY DO MASONIC LODGES LOOK OLD?

There are lodges in over than 100 country in the world, but the Grand Lodge exists in France and the United Kingdom.

The reason behind the old Masonic buildings is a paradox from the 1950's when Freemasonry was in a boom era of incredible growth. At its height, Freemasonry had more than 4 million members and consequently lots of member money. With its growth of membership so did its infrastructure grow. One of the consequences of having these expensive buildings that were built or purchased in the 1950's

and 1960's is that they eventually needed to be updated to modern building codes which became very expensive which coincided with a decline in membership. Today, there is an abundant inventory of lodges, with a decreasing volume of membership. There are many lodges that have not fallen into disrepair and are beautiful temples of the fraternity.

5.FREEMASONRY DOMINATES THE WORLD:

5.1. HOW DOES FREEMASONRY AFFECT THE WORLD?

Freemasonry isn't a fraternity to unite the world as Freemasons allege. It's actually a way to dominate the world and disprove the existence of God.

That stands clear in wars, destruction of all sacred and holy places in the world. Even TV programs, films and cartoons are Masonic somehow.

In this way, Freemasonry is controlling our minds and planting devilish thoughts in our kids' minds and we don't even notice!

Image-12-

CONCLUSIONS & SUGGESTIONS

The Jewish Zionists created Freemasonry, and Freemasons themselves announced that. Not to mention the clear Jewish thoughts in the Masonic ideas, goals, the way they organize themselves, their rites and that Freemasonry follows the Jewish method.

The Jewish Zionists allege that they'll rule their alleged kingdom and that the final rule is up to them!

So we, as conscious people should get rid of these illusions because they're a belief in the Jewish theory 'The chosen nation' which is offensive to religion and humanity, to protect the religion, homeland and hallowed places.
